Software upgrading instruction for AURA:

This upgrade will add **Spotify Connect** compatibility to your AURA speaker.
(Please note that you need paid Spotify subscription to use the Connect option.)
Before upgrading, please use an USB stick and do the following.

1. Format your USB stick to FAT32 format.
2. Delete everything on your USB stick, so there is nothing left on it.

To upgrade your AURA speaker, please follow the upgrading instruction below.

1. Copy the HK_AURA.bin to your formatted USB stick root.
2. Turn on your AURA speaker.
3. Insert the USB stick into the USB port on the AURA speaker.
4. Press and hold the **Power + Wi-Fi** buttons simultaneously for 5 seconds.
5. The inner LED ring of the AURA speaker will begin to light up and start moving.
6. After about 20 minutes, your AURA speaker will be upgraded, and will automatically restart.

To check that your AURA is now Spotify compatible, open your paid subscription Spotify app, and start playing music. Tap the Connect icon on the Spotify app screen. Your AURA speaker should become visible as an optional speaker, and is ready to play when you select it.
